HOW TO PUT ON AN EAR CUFF GUIDE

OUR 925 STERLING SILVER IS A FAIRLY FLEXIBLE MATERIAL, ALLOWING YOU TO:

1 - MAKE THE CUFF LOOSER AND PRY THE OPENING APART WIDER WITH YOUR FINGERS

2 - STARTING FROM THE TOP OF THE EAR WITH ONE SIDE OF THE EARCUFF FLANGE BEHIND THE EAR AND THE OTHER ON THE FRONT,
SLIDE THE EARCUFF DOWN ONTO YOUR EAR LOBE STARTING FROM THE TOP THIN CARTILAGE
ALL THE WAY DOWN TO WHERE YOU WANT TO POSITION YOUR EARCUFF.

* MOST EAR CUFFS SHOULD BE POSITIONED JUST MIDWAY ALONG THE OUTER RIM OF THE EAR,
JUST ABOVE THE TOP OF THE EARLOBE.

3 - MAKE SUBTLE ADJUSTMENTS BY HAND. SQUEEZE THE OPENING IN BETWEEN YOUR FINGERS TO MAKE IT TIGHTER.

* ADJUSTMENTS MADE WITH YOUR FINGERS CAN BE DONE WHILE THE EAR CUFF IS ON YOUR EAR,
BUT YOU SHOULD WORK CAREFULLY AND IN SLOW INCREMENTS TO AVOID MISSHAPING THE CUFF OR INJURING YOUR EAR

4 - THE EAR CUFF SHOULD BE COMFORTABLE. IF IT MAKES YOUR EAR SORE, IT'S TOO TIGHT.
IF IT STARTS SLIPPING OFF OR SLIPPING FURTHER DOWN YOUR EAR, IT'S TOO LOOSE.

5 - LASTLY, YOU CAN REMOVE THE EARCUFF VERY EASILY ONCE IT IS TIGHT ABOVE THE EARLOBE,
JUST SLIDE IT BACK TO THE TOP OF THE CARTILAGE WHERE IT IS THE THINNEST;
IT WILL SLIDE OFF EASILY WITHOUT HAVING TO OPEN IT AGAIN.
